Inside...

Animals: Real life photos, taken from journeys exploring the world!

Habitats Real world examples and stories about the places where animals naturally or normally live.

Fun Facts Discover what animals eat, how they adapt to the environment, and cool information.

Conservation Learn about how animals are surviving in our world.

Journal Entries Experience a personal voice while learning about animals from around the world.

World Maps Maps of the world that show where animals live.

Available at www.deanjacobs.org (Hard cover \$17.95 plus shipping & tax.)

ACCOMPANYING THE BOOK is a whole new presentation for elementary students that will help create a solid foundation for habitats, and the animals that live there. Students connect to scientific concepts about the environment with photos and first hand stories of exploring these various ecosystems. The program also includes a fun and engaging writing exercise.
