

*Educating people and inspiring action to ensure
sustainable, clean groundwater for future generations*

Dear Dean,

Thank you so much for being with us and presenting at our conference. One of the most valuable aspects of our conference is the fact that people who care about groundwater leave the conference feeling reinvigorated to go home and do more. Your presentation added to that message, reminding us that we all share this planet regardless of color, creed, or culture, or for that matter whether animal, human or plant. And as such, we each have a responsibility to care for it and the water that nourishes us all.

Following your presentation we heard many very positive comments about your passion, enthusiasm and most importantly for us how nicely you had tied in water to your comments. You did an awesome job and we are most honored to have had you with us.

On behalf of our staff, the board of directors and all of those who benefitted from the conference, thank you for sharing your experiences at the 2011 Groundwater Foundation conference.

Sincerely,

Cindy Kreifels
